

WATSON FARLEY & WILLIAMS LLP

Watson Farley & Williams LLP is a distinctive sector-focused law firm with a leading market position in energy (including renewable energy and oil & gas) and transport (including maritime and aviation). With over 500 lawyers (including 160 partners) across our 14 offices in Europe, the Middle East, Asia and the US our strategy is to be a leading international industry specialist across our core sectors, dedicated to client care and providing excellent, high profile services across complex transactional and contentious matters.

With over 200+ energy focused lawyers worldwide we have a dedicated offering. Our goal is to partner with clients to help them achieve successful energy projects, from inception through to M&A and financings, and support across the life cycle, providing a cradle to grave service.
